Plastics Australia Pty Ltd

quality that's visible

## **CUSTOM MADE**

Packaging is no longer seen simply as a means of transporting and protecting products, it can determine a company's image and is an integral part of product positioning in today's competitive market place.

At Tacca Plastics we pride ourselves on providing innovative packaging solutions backed by years of experience and a proven reputation for service and quality. With the latest technologies at their disposal, our sales and design professionals will help ensure your ideas are realized from concept to completion. Using our Cad in house design capabilities Tacca Plastics can provide a physical prototype, samples or a three dimensional drawing of the proposed packaging you may be looking for.

Tacca Plastics have been designing and supplying packaging for a broad range of markets for many years. Some of these markets include Fresh Food, Automotive, Pharmaceutical, Confectionary, Hardware and Personal Care.
